

# Mercedes-AMG A 45 and A 45 S

Price list Pirelli P ZERO™ TROFEO R MO1 valid from 1st September 2019.

**AMG**  
DRIVING PERFORMANCE

# Warning messages.

Pirelli P ZERO™ TROFEO R M01.

At low temperatures below 10 °C (50 °F), in rain or standing water, the level of grip falls drastically, making it crucial to switch to standard tires.

Driving with these tires at low temperatures, in rain or standing water, leads to aquaplaning and thus to a loss of control over the vehicle, which can result in accidents.

These tires must not be used in rain or wet road conditions. If such conditions should be encountered unexpectedly, please drive extremely carefully, slowly and only as far as absolutely necessary.

These tires should not be used at outside temperatures of below 10 °C (50 °F). Furthermore, the tires should be stored at a temperature of 5 °C (41 °F) or above, as storage at low temperatures can have a negative impact on the performance of the tires.

The tire compound used is such that the tread wears down comparatively quickly, so leading to a significantly lower mileage performance.

Should a third party use the vehicle, it is your obligation to inform them of the above-mentioned restrictions, as also in the event of the car being sold or its ownership otherwise transferred. Most importantly, this supplementary sheet to the owner's manual should also be handed to the third party.
